

COVID-19 Protection Measures

Locanda Villa Moderna takes the health of its guests and staff very seriously. For this reason, we believe it is right to inform you of the measures that have been adopted in this difficult moment to guarantee you a stay that is not only relaxing, as it has always been, but also safe.

1. Alcohol-based gel dispensers have been added in the common areas, such as the hall or the balcony on the bedroom floor, to allow you to disinfect your hands at any time you see fit.
2. Properly worn mask to cover the mouth and nose is required in the common areas.
3. The staff will always respect the minimum distance recommended by the World Health Organization when interacting with guests.
The suggested distance is 1 meter, and staff will always wear a protective mask during the interaction.
4. Physical contact will be limited, compared to normal conditions. This means that it will not always be possible to help you carry your luggage, or handle your personal belongings if not correctly sanitized previously.
5. The staff will access the rooms only in the absence of the guests. Cleaning will be conducted in-depth, with sanitizing and disinfecting devices and with medical/surgical aids, at the end of each stay.
During the stay, the intermediate cleaning and the change of linen will be carried out only when requested by the guests. The necessary measures will be taken to limit contact and to ensure the isolation of the rooms.
6. Breakfast will change from the "buffet" mode to the served mode, to avoid the mixed-use of bottles, glasses and cutlery, and to prevent food from becoming a means of diffusion.
7. The furniture of the restaurant room has been modified to allow more thorough cleaning operations and ensure that the surfaces are always disinfected and sanitized. For example, the tables now guarantee interpersonal distancing, and the surfaces are covered with plastic tablecloths, which allow quick and safe washing with alcohol-based detergents.
8. Breakfast will be served at agreed times, with the request to respect the selected shift, limit the presence of people inside the restaurant, and allow the necessary cleaning of the room between one service and another.
